

Why shouldn't I be able to experience the benefits for a service which I PAY for. I chose satellite radio because of what it offers. Freedom is being threatened here. Satellite radio didn't come into my car or my house and kick AM/FM out. It still exists, I still tune-in. I have the variety I want with the options I now have. It shouldn't be up to YOU to DICTATE what I listen to. It shouldn't be up to you to take away something I pay for. Over a million people couldn't be wrong by subscribing to XM. Do not take this away from us. Satellite radio is a simple pleasure in life.
